We supply the highest quality product from Hamel Bois. Hamel Bois is a family owned and operated business out of Canada.

Hamel Bois Timber Frame kits are an excellent addition for your outdoor living experience. Visit Boishamel.com

You can purchase predetermined size kits or have a customized structure built with your specifications.

Your needs are unique, just like you are. Allow us to meet your highest expectations. For any type of project, we offer customized services. We can make your dream into a reality...

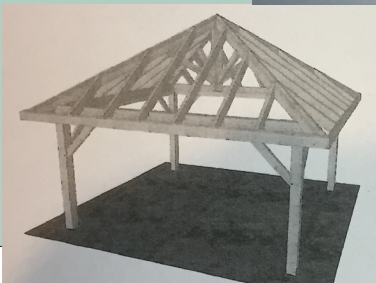

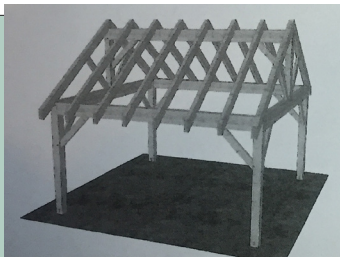

The woodwork construction, also called "TIMBER FRAME", is assembled using mortise-and-tenon joints and/or dowels. Structural type solid wood components add a touch of country to any decor.

Your backyard landscape is the extension of your living space. Whether it is separate with a Pavilion or an extension of your home with a patio.

From this...

...to this in ONE AFTERNOON!

This relaxing gathering space will become the highlight of your evenings.

Your Pavilion can be added over an existing patio or you can have us help you design a new patio.

Come see our displays of Pavilions that we have. You will notice the quality and integrity of the structure.

Our Process Begins With You

Bring in a developed set of plans or sketches on a napkin...we are set up to help you at whatever stage you are in. Our design team will work with you to design the Pavilion or Pergola of your dreams. We will listen to the needs and tastes of your family and craft a place that will be a legacy for you and your family.

Fabricating Your Dream

Once the design is approved by you and stamped by our engineer, efficiency, we start to fabricate each timber and mortise and tenon joint, inspect and load your project for shipment to your site. During the fabrication process we assist with any questions you or your builder may have, and can assist with engineering the entire structure as well.

Extraordinary Outdoor Living Timber Frames

We believe that using timber to build our outdoor structures shows respect for the beauty and strength of the nature that surrounds them. The exceptional craftsmanship and quality material that goes into each building ensures that it will last for generations.

Custom Built for Your Needs

Each Hamel Bois Timber Frames outdoor structure is custom designed for your specific outdoor living needs and to your unique style. Our designers will consider your desires for outdoor kitchen space, furniture, a fireplace, and entertainment and create the layout and structure accordingly.

PERGOLA

Increase the enjoyment of your backyard space with a Traditional Wood Pergola. Crafted in hand-picked lumber, these pergolas are timeless structures that will increase your enjoyment of your backyard space. Our Traditional Wood Pergolas come standard in natural, unstained wood for a more rustic look. If you prefer richer dark tones or a light hue, we can stain the pergola to a color of your choice from our list.

Standard Features

- Solid Timber 7"x 7" and 8"x 8" posts are used.
- 2x6 joists span the shorter side, and 2x4 runners span the longer side
- Decorative scalloped ends and notched intersections to resist warping
- Heavy-duty double 2x6 header with braces for rigidity
- Anchor brackets for concrete pad and wood decks can be added
